About St. Jude

St. Jude Children's Research Hospital® is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. Our purpose is clear:

Finding cures. Saving children.®

Families never receive a bill from St. Jude for treatment, travel, housing or food—because all a family should worry about is helping their child live.

Treatments invented at St. Jude have helped push the overall childhood cancer survival rate from 20 percent to more than 80 percent since it opened more than 50 years ago and we won't stop until no child dies from cancer.
