ABOUT ST. JUDE

- St. Jude Children's Research Hospital is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. Our purpose is clear: Finding cures. Saving children.
- Families never receive a bill from St. Jude for treatment, travel, housing or food – because all a family should worry about is helping their child live.
- Treatments invented at St. Jude have helped push the overall childhood cancer survival rate from 20 percent to more than 80 percent since it opened more than 50 years ago. St. Jude is working to drive the overall survival rate for childhood cancer to 90 percent, and we won't stop until no child dies from cancer.

WALL STREET'S HISTORY OF SUPPORT

Over the past 27 years, dedicated members of the Wall Street community (including Invest in Hope) have raised over \$42 million for the children of St. Jude. Funding from the Wall Street initiative has benefited a wide variety of research and treatment efforts at the hospital, including the brain tumor program, pediatric HIV/AIDS research and the naming of the Infectious Disease Research Floor in the Chili's Care Center on St. Jude's campus.
