

Why St. Jude?

Our laboratories
may not be in your
communities

**BUT OUR
DISCOVERIES
ARE** 📍

St. Jude patient **Raeleigh**, blood cancer
pictured with her mom

St. Jude freely shares the discoveries it makes, so doctors and scientists worldwide can use that knowledge to save more children.

St. Jude has the **world's best survival rates** for some of the most aggressive childhood cancers.

We've helped push childhood cancer survival rates from

20%–80%

We won't stop until no child dies from cancer.

stjude.org

There are great
children's hospitals,
research institutions
and **charities.**

St. Jude is **all 3**

St. Jude patient **Javier**,
mixed germ cell tumor

1 CHILDREN'S HOSPITAL

- **First & only** pediatric cancer center to be designated a **comprehensive cancer center** by the National Cancer Institute.
- Nation's **first proton therapy center** dedicated solely to children.

2 RESEARCH INSTITUTION

- Conducts **more clinical trials for cancer** than any other children's hospital.
- **First children's hospital** to make a major investment in **pediatric cancer genome sequencing** to unlock the secrets of childhood cancer.

3 CHARITY

- **Families never receive a bill from St. Jude** for treatment, travel, housing or food—because all a family should worry about is helping their child live.
- Because the **majority of funding comes from people like you**, St. Jude has the freedom to focus on what matters most—**saving kids regardless of their financial situation.**

St. Jude Children's Research Hospital® is a national resource with a global mission.
Join us in our lifesaving mission: Finding cures. Saving children.®
