

RALLY TO SET A MEANINGFUL FUNDRAISING GOAL.

Because the majority of St. Jude Children's Research Hospital® funding comes from generous donors, St. Jude has the freedom to focus on what matters most – saving kids regardless of their financial situation. Every dollar makes a difference.

\$100

Help provide a platelet count test for two patients.

Platelet counts are among the tests doctors use to monitor patient health during treatment.

\$250

Help provide a meal card for a St. Jude family for one week.

St. Jude provides patients and their families with meal cards for breakfast, lunch, and dinner in Kay Kafe, the hospital's cafeteria.

\$500

Help provide one platelet transfusion.

During chemotherapy, platelet count of patients can drop to dangerously low levels.

\$750

Help provide two days of oxygen for a St. Jude patient.

During treatment, patients may need oxygen to help their bodies function and heal.

\$1000

Help cover about two-thirds of the cost of one day of chemotherapy.

Treatments invented at St. Jude have helped push overall survival rates for childhood cancer from 20 percent when the hospital opened in 1962 to more than 80 percent today.

St. Jude patient Azalea,
age 3, rhabdomyosarcoma
