

*Ninety-six patient families were surveyed regarding virtual volunteering. These are their responses.
Thank you, Virtual Advisory Council.*

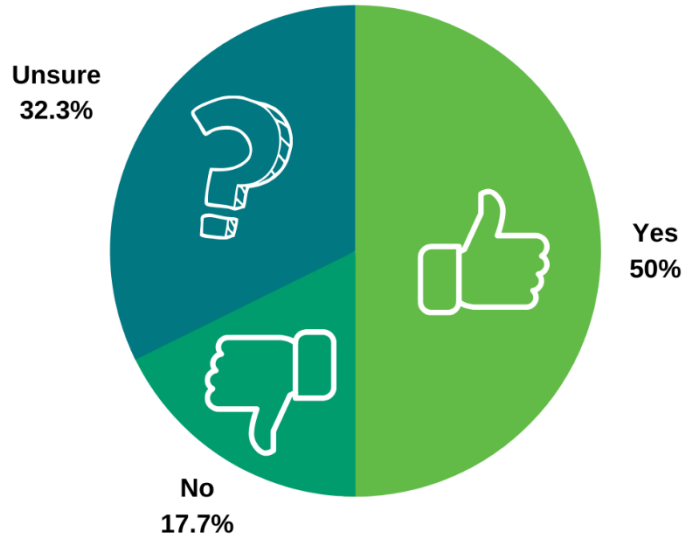

Ideas for videos:

Go on a nature walk, and point out birds, flowers, etc.
Show off a cool collection you have
Instrument lesson, maybe make an instrument using things they have access to in the hospital.
Painting, drawing, card tricks
Funny/cute pet videos
Sing-a-longs, songs with movements
Baking/cooking videos
Science experiments
Magic tricks
Art projects (simple and more complex)
 Can you think of any project they can do with things they have in their room?
Making slime
Building LEGO, complex and simple
Games, Art, Reading, Crafts
Gender neutral activities so brothers and sisters can participate together
Juggling
Robotics
Painting simple things, like the sky or a car
Acting out characters while reading books
Geology
Astronomy
Rube Goldberg experiment
Scavenger hunt for things in their room (can play against their caregiver if inpatient)

Get creative and have fun!

More survey results, next page.

Would your child watch videos by volunteers?
